## SUMMARY

Full Stack Developer with 2 years of experience in building scalable, user-friendly web applications. Skilled in problem-solving and passionate about learning new technologies. Known for writing clean, efficient code and thriving in collaborative, fast-paced environments.

## SKILLS

- **Frontend Technologies:** HTML, CSS, JavaScript, Bootstrap, React.js,
- **Backend Technologies:** Node.js, Express.js, REST API
- **Database:** MongoDB, SQL
- **Programming Language:** Java
- **Version Control:** Visual Studio, Git, GitHub

## EXPERIENCE

**Frontend Developer**

*Hacknovate 6.0*                                                                 📅 *April 2025*

- Worked as a Frontend Developer, designed to streamline judicial processes using AI-driven analysis.
- Built responsive and interactive user interfaces using React.js, focusing on usability and performance.
- Implemented features like case tracking, document management, AI-based recommendations, and hearing scheduling.

**Backend Developer**

*Smart India Hackathon 2024*                                                     📅 *December 2024*

- Worked as a Backend Developer, developing RESTful APIs and integrating them with the frontend.
- Designed and implemented database schemas using MongoDB for efficient data storage.
- Connected the frontend with the database, ensuring seamless data flow and optimized performance.

**Frontend Developer**

*Ideathon 2.0*                                                                   📅 *November 2023*

- Developed an educational website for Indian classical music enthusiasts.
- Built the website using HTML, CSS, and JavaScript, ensuring a responsive and user-friendly interface.
- Collaborated with a team to design and implement key features for better user engagement.

## PROJECTS

**Krishi Seva** ◯ | React.js, Tailwind CSS, Node.js, Express.js

- A smart agriculture platform developed to assist farmers by providing crop recommendations based on soil nutrient composition and suggesting the optimal type and quantity of fertilizers required for effective crop cultivation.

**DigiCourt** ◯ | Next.js, Tailwind CSS, NumPy, TensorFlow

- An AI-powered legal-tech platform that streamlines case tracking, document analysis, and judicial workflows to enhance efficiency in Indian courts.

**Swar Siksha** ◯ | HTML, CSS, JavaScript

- An educational platform designed to promote Indian classical music through structured video lectures, categorized genres, and traditional handwritten manuscripts for better understanding of musical notations.

## ACHIEVEMENTS

- Participation Certificate of **Smart India Hackathon 2024** 🛆
- Participation Certificate of **Hacknovate 6.0** 🛆
- **Java DSA** from Apna College 🛆
- **Java basics** from Softpro India pvt. limited 🛆

## EDUCATION

- **ABES Institute Of Technology, Ghaziabad (AKTU)**                    📅 November 2022 – Present

  B.Tech in Computer Science and Engineering                          *Current CGPA – 8.3*

- **ST. Joseph's Academy, Ghaziabad (CISCE)**                          📅 May 2021- August 2022

  Intermediate from Computer Science                                  *Percentage – 87.2%*
